

About

We are an organization that focuses on connecting and celebrating our community through innovative initiatives, programming, and events that move the needle and ignite economic growth for our region. Some of our initiatives include steering the momentum on the Grand Farm Initiative, launching the first code school in North Dakota (Emerging Digital Academy), and operating a co-working space (The Prairie Den). For the year of 2021, our team is committed to creating impact within each part our organization.

1 Grand Farm Initiative

The Grand Farm Initiative aims to capitalize on the region's potential in the agriculture and technology industries. Grand Farm is designed to inspire collaboration among businesses, organizations and entrepreneurs to develop the future farm. Our team is working to engage 50 unique partners throughout the next year.

2 Emerging Digital Academy

This 20 week technical bootcamp was created to address the growing demand for skilled software developers. Emerging Digital Academy emulates an on-the-job training environment. For the next year, our team has committed to getting 50 students enrolled in the program and connected to the technology industry in our region.

3 Entrepreneurial Ecosystem

We believe that incredible things happen when entrepreneurs connect, and it's our mission to facilitate those interactions. During 2021, our team will focus on supporting 25 entrepreneurs through our entrepreneur cohort program. This program prepares entrepreneurs through the CO.STARTERS training for professional and personal growth.

Mission // Energize Communities. **Vision** // The relentless pursuit to improve the human condition.
