

2022 Founders Ecosystem Partnership Opportunities

About Our Founders Ecosystem

The Emerging Prairie Founders Ecosystem is a collection of programs, services, and resources available to founders in the Fargo-Moorhead region. From high-growth companies to small business entrepreneurs and everyone in between, we believe that it takes all types of founders and risk-takers to make a startup community thrive.

Working with the Founders Ecosystem

“StartupBREW was an amazing experience! The work we’ve launched at Growing Small Towns is kind of different, maybe a little offbeat, and so I don’t always find myself presenting to an audience of so many open-minded and open-hearted people. From that one opportunity at StartupBREW, I’ve already written three different artists into a grant proposal for our organization and am actively working on three new partnerships with organizations that had team members in the audience that day. I am so grateful for the chance to tell our story and meet people who dream big like I do!”

- **Rebecca Udem, Founder, Growing Small Towns**
