

2022 Annual Partnership Opportunities

About Emerging Prairie

Emerging Prairie energizes the region’s startup ecosystem, sitting at the intersection of entrepreneurs, innovators, and technologists.

OUR STORY

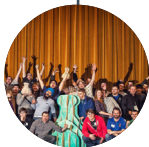

We trace our roots back to 2012. An explosion of startup/founder activity was occurring across the midwest, and our founders saw the potential of the Fargo-Moorhead area and sought to capitalize on that energy and ignite economic growth for our region and community.

We officially launched as a digital media organization, writing stories about and sharing news of local founders and change-makers, elevating them online. Soon after, our founders realized they had a knack for creating connections and event planning. We launched events, programs, and conferences that brought people together. We also realized we were uniquely positioned to identify and address gaps in our ecosystem - leading to a variety of targeted events, programs, and initiatives over the years. We will continue our efforts in this and are excited for what we will be able to accomplish together in the future.
