

2023 Startup Programs Partnership Opportunities

Emerging Prairie’s Startup Programs connect founders and entrepreneurs to helpful resources and provide access to key partners in the Fargo-Moorhead region. From high-growth companies to small business entrepreneurs and everyone in between, we believe that it takes all types of founders and risk-takers to make a startup community thrive.

Amanda Pieters
Founder
Avocado Doula

“A dear friend encouraged me to get connected to the Startup Programs through Emerging Prairie. I began by speaking at Startup BREW. I did not expect to connect with many other entrepreneurs at that time. But I connected with several people I met that day, including a future client, and other community resources that have helped to strengthen my business.

Later, I went on to join the Women’s Startup Cohort, and this is where the real magic happened. Without this Startup Cohort experience, I can confidently say that I’d still be dragging my feet in filing my LLC. I’m incredibly grateful for the tangible, and accessible, resources Emerging Prairie has offered, it has made my startup journey so much more manageable.”
